STAFF

01. Weekly Progress Reports are due on Thursday. They are printed by 7:45 AM on Friday.

02. We need a supervisor for the FB game on Fri., 9/11. See Karen or Mr. Theisen if you can help.

03. What's your backup strategy? If you save your important materials to your folder on the fileserver,

they're backed up. If you don't and your computer crashes, you may lose all your hard work.

Those who received projectors/Smartboards, please add the equipment to your own inventory list.

Please encourage your students to know where they are printing. Each year we go through reams and reams of paper we wouldn't if we were paying attention.

Three faculty responded to my survey on using Learn 360. Everyone needs to do it, otherwise how will we know if we want to continue it? Let's try the survey again. I've put it in your box. Please respond.

Remember: have your students "Restart" instead of "Log out" when they're working in the labs.

I have a G3 laptop; not too useful for surfing or image processing, but fine for word processing.

The Technology Oversight Committee--Sub-Committee for Rock and Roll
